

SPEAKER POLICY

- Keynote speakers will be offered comp registration.
- All speakers coming from call for presentations (regardless of session format) must register for the virtual conference.

APBP member registration is \$199 USD and non-member registration is \$299 USD (there is no one-day registration option and there is no discount for speakers)*

- All conference content will be recorded and available to all registered attendees for at least 6 months after the meeting.
- Our virtual conference registration is deeply discounted from in person conference registration, plus you will not have travel or hotel costs to cover!

**If your proposed session includes a speaker representing a neighborhood organization, or other non-profit who was a major stakeholder on a project, and is not a practicing bicycle or pedestrian professional, please indicate this on the proposal form by noting them as a 'Guest Presenter.' We can make accommodation for the required registration for appropriate Guest Presenters to be waived. Guest presenters will only be guaranteed access to attend the session in which they are presenting and are asked to register for the conference if they wish to attend all programming.*
